WHAT IS SUSTAINABLE FINANCE

Sustainable finance supports the transition towards a low carbon economy and contributes to a more just and inclusive society.

Sustainable and responsible investment (SRI) aims to create value for investors and the overall society within a mid/long term horizon. SRI investment strategies integrate financial, environmental, social and governance (ESG) analysis.

WHO WE ARE

The **Italian Sustainable Investment Forum (ItaSIF)** is actively committed to the sustainable evolution of the financial system.

ItaSIF was born in 2001 and it has a multi-stakeholder membership base since members are not only financial operators, but also civil society organizations involved in the environmental and social impact of finance.

Thanks to its innovative research, knowledge sharing approach and educational activities, ItaSIF is the point of reference for the Italian financial community regarding sustainable finance.

MORE THAN 20 YEARS OF EXPERIENCE
in sustainable finance

The **Italian Sustainable Investment Forum (ItaSIF)** is a board member of Eurosif, the Brussels-based association committed to promoting sustainable finance in European markets. This strengthens ItaSIF input into the important developments of EU sustainable finance.
