

ESG data: market trends, challenges e perspectives

Technical details

Date: 17 September 2020 Format: SRI webinar Hour: 15:00 – 16:30

Promoted by: Forum per la Finanza Sostenibile (FFS)

With the support of: S&P Global

By invitation

Contents

The seminar will analyse the crucial role of high-quality ESG data for the development of the SRI market. The event will be an opportunity for market participants to discuss about criticalities and perspectives with regard to production, access, availability and effectiveness of data.

The panel of speakers will include representatives from companies (data producers), institutional investors (data users) and data providers.
